

Assembly Bill No. 2824

CHAPTER 247

An act to add Section 1531.1 to the Health and Safety Code, relating to community care facilities.

[Approved by Governor July 20, 1996. Filed with
Secretary of State July 22, 1996.]

LEGISLATIVE COUNSEL'S DIGEST

AB 2824, Bordonaro. Community care facilities: delayed egress devices.

Existing law provides for licensure and regulation of community care facilities by the State Department of Social Services. Violation of these licensing provisions is a crime.

This bill would permit residential facilities and foster family homes with persons that have developmental disabilities, as defined, to install and utilize delayed egress devices, as defined, if certain conditions are met. By changing the definition of a crime, this bill would impose a state-mandated local program. By requiring that local fire protection officials approve the installed delayed egress devices, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

The people of the State of California do enact as follows:

SECTION 1. Section 1531.1 is added to the Health and Safety Code, to read:

1531.1. (a) A residential facility licensed as an adult residential facility, group home, small family home, foster family home, or a family home certified by a foster family agency may install and utilize delayed egress devices of the time delay type.

(b) As used in this section, “delayed egress device” means a device that precludes the use of exits for a predetermined period of time. These devices shall not delay any resident’s departure from the facility for longer than 30 seconds.

(c) Within the 30 seconds of delay, facility staff may attempt to redirect a resident who attempts to leave the facility.

(d) Any person accepted by a residential facility or family home certified by a foster family agency utilizing delayed egress devices shall meet all of the following conditions:

(1) The person shall have a developmental disability as defined in Section 4512 of the Welfare and Institutions Code.

(2) The person shall be receiving services and case management from a regional center under the Lanterman Developmental Disabilities Services Act (Division 4.5 (commencing with Section 4500) of the Welfare and Institutions Code.

(3) An interdisciplinary team, through the Individual Program Plan (IPP) process pursuant to Section 4646.5 of the Welfare and Institutions Code, shall have determined that the person lacks hazard awareness or impulse control and requires the level of supervision afforded by a facility equipped with delayed egress devices, and that but for this placement, the person would be at risk of admission to, or would have no option but to remain in, a more restrictive state hospital or state developmental center placement.

(e) The facility shall be subject to all fire and building codes, regulations, and standards applicable to residential care facilities for the elderly utilizing delayed egress devices, and shall receive approval by the county or city fire department, the local fire prevention district, or the State Fire Marshal for the installed delayed egress devices.

(f) The facility shall provide staff training regarding the use and operation of the egress control devices utilized by the facility, protection of residents’ personal rights, lack of hazard awareness and impulse control behavior, and emergency evacuation procedures.

(g) The facility shall develop a plan of operation approved by the State Department of Social Services that includes a description of how the facility is to be equipped with egress control devices that are consistent with regulations adopted by the State Fire Marshal pursuant to Section 13143 of the Health and Safety Code.

(h) The plan shall include, but shall not be limited to, all of the following:

(1) A description of how the facility will provide training for staff regarding the use and operation of the egress control devices utilized by the facility.

(2) A description of how the facility will ensure the protection of the residents’ personal rights consistent with Sections 4502, 4503, and 4504 of the Welfare and Institutions Code.

(3) A description of how the facility will manage the person's lack of hazard awareness and impulse control behavior.

(4) A description of the facility's emergency evacuation procedures.

(i) Delayed egress devices shall not substitute for adequate staff. The capacity of the facility shall not exceed six residents.

(j) Emergency fire and earthquake drills shall be conducted at least once every three months on each shift, and shall include all facility staff providing resident care and supervision on each shift.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution for certain costs that may be incurred by a local agency or school district because in that regard this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.

However, notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains other costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars (\$1,000,000), reimbursement shall be made from the State Mandates Claims Fund.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.
